MILLAGE RATE

The tax rate that is applied to the assessed value of taxable property to calculate the amount of property tax to be paid.

The millage rate is usually stated as “dollars per thousand”.

- E.g. Millage rate of 1 mill is \$1.00 per thousand of assessed value.
- For calculation purposes, the millage rate is stated as 0.001.

The millage rate is established by the levying authority each year.

MARKET VALUE/ASSESSED VALUE

Market value is the current estimated amount at which property can be bought or sold. Assessed value is 40% of the market value and is used as the basis for calculating the property tax levy (bill) in Georgia.

E.g. If the market value of a parcel of real property is \$100,000; its corresponding assessed value is \$40,000.
