Fulton County Transit Master Plan Overview

Following last year's ¾-cent TSPLOST effort, the Mayors of the 14 Cities outside of Atlanta and the Fulton County Commission affirmed that a plan was needed to determine potential expansion of transit services in Fulton County.

The Mayors and County approached ARC to help fund and manage the study in collaboration with MARTA, Fulton County, and the 14 participating cities.

Dreams
FOUNDATION

ELITE SPORTS ATLANTA

Elite Sports Atlanta (ESA) exists to transform the lives of youth using sports and performing arts to capture their interest and attention in order to expose them to educational and entrepreneurial opportunities. We are currently in the process of securing the necessary capital to build a state of the art indoor sports complex in the South Fulton Aerotropolis along a 135 acre tract off the South Fulton Parkway. Our facility will be the first national facility in the world with all sports indoors. The ESA team is currently working to make this a U.S. Olympic training site in addition to being a sports, education, performing arts and entertainment facility.

The Elite Dreams Foundation mission is to be a leading partner in transforming the lives of youth seeking opportunity. We are creating an international movement that expands the minds of all young people by providing them with the critical skills, tools and exposure necessary to fully realize their goals, their talents, their passions and their gifts as human beings. Together, we work to shepherd our youth towards becoming responsible, engaged and contributing members to their community.

Since 1990, Elite Sports Atlanta CEO Antonio Lenard has been involved with or responsible for more than 80 young athletes obtaining full athletic scholarships. This has been and continues to be one of his top priorities. We know that with a solid foundation of mentoring, opportunity and resources the youth of these communities will be able to not only graduate but go on to college and beyond. Low wealth communities are rife with at-risk students. Our goal is to help as many young people as we possibly can transform a statistical trajectory of generational poverty and all its inherent ills to lives fully actualized to all they can be.

Elite Dreams Education Division

The Elite Dreams Foundation serves as a flagship platform for our education division. Our mission is to encourage, educate, develop and expose youth to opportunities and pathways toward the attainment of their unique goals and aspirations for successful lives and careers. In concert with our community, nonprofit and corporate partners, we focus on two distinct platforms through which we embed and layer supportive enrichment experiences which builds character, strength, leadership and a sense of responsibility to community.

Starting with our tutoring platform, we assess each student for strengths, challenge areas and learning styles to create a personalized learning plan utilizing both online and one-on-one tutors to supply each student with all the necessary supports to ensure academic success towards the attainment of scholarships for academic, collegiate athletics or performing arts study. Added to this essential support is our mentoring and entrepreneurship platform. This comprehensive platform provides each student with access and exposure to community resources, professional mentors and enrichment experiences which opens new vistas for entrepreneurial pursuits, community leadership and appreciation of diverse peoples and cultures through travel and exchange.

Combining these with the opportunity for award-winning sports training and coaching, students in our program emerge with a strong foundation for personal achievement, a personal portfolio of pathways for professional and business development and, a personal pipeline to resources, people and organizations to tap into as they continue to grow and attain new heights.
