MOTHER CLEOPHAS “CLEO” ORANGE

WHEREAS She was a mother of the Civil Rights Movement, her journey began 78 years ago. Cleophas “Cleo” Orange, a native of Tuscaloosa Alabama, married to Rev. James Orange who was one of Dr. King's inner circle and organizer of the "Ground Crew" of the Civil Rights Movement. Cleo was not only a mother to the movement but a mother to the couples five children, and many others in the local community; and

WHEREAS She was a powerful young woman who stepped up in the mist of tragedy. A rainy spring evening in 1968 found the lights still burning at Southern Christian Leadership Conference headquarters on Auburn Avenue. About a dozen people were working on the Poor People’s Campaign, when the heart-stopping phone call came through: the Rev. Martin Luther King Jr. had been felled by a sniper’s bullet in Memphis; and

WHEREAS Cleo a supervisor, jumped in to organize staffers, putting them on the phones to notify the group’s leaders while helping them field a deluge of incoming calls and a growing number of the grieving people drawn to the office; and

WHEREAS She was known as a quiet storm, she had a peaceful but powerful presence. She was small in stature but had a large personality and heart. Someone who never failed to take time to sit down, talk with and hug someone who was struggling. The backbone of her husband James; and

WHEREAS She was a gifted leader, as the civil rights movement changed and matured, Cleo Orange trained and mentored succeeding generations, pointing out that while they didn’t have to press for change in the way that her contemporaries had, they should at least learn how it was done as opposed to starting like you’re starting from the beginning, and nothing came before; and

WHEREAS She never stopped in leading the movement, in the years following her husband’s death in 2008, Orange continued working behind the scenes, helping daughter Jamida and the Rev. Bernice King with their work at the King Center.

NOW, THEREFORE, BE IT RESOLVED, that the Mayor and City Council of the City of South Fulton acknowledges the gifts and graces in celebration of the life and legacy of Cleophas “Cleo” Orange and does hereby proclaim Tuesday, January 17th, 2023, as **MOTHER CLEOPHAS “CLEO” ORANGE APPRECIATION DAY** in the City of South Fulton.

The City may, at its sole discretion, defend itself or allow the Contractor to provide the defense.

16. Amendment. The Parties recognize and agree that it may be necessary or convenient for the Parties to amend this Agreement so as to provide for the orderly implementation of all of the undertakings described herein, and the Parties agree to cooperate fully in connection with such amendments if and as necessary. SCOPE OF SERVICES

PROJECT SCHEDULE

Milestone 1 – Full execution of the agreement

Agreement will identify Project Launch date.

Milestone 2 – Project Launch

We will conduct an interactive telephone conference with local government contacts. Our project leads will launch the project by clarifying and confirming expectations, detailing study parameters, identifying agency point of contacts and commencing information gathering.

Milestone 3a – Information Gathering and Data Extraction – 30 Days

Immediately following project launch, the operations leads will deliver an information request to the department. This is an extensive request which provides us with a detailed understanding of the department's operations. Our experience is that it typically takes an agency several weeks to accumulate and digitize the information. We will provide instructions concerning uploading materials to our website. When necessary, the lead will hold a telephone conference to discuss items contained in the request. The team lead will review this material prior to an on-site visit.

Milestone 3b – Data Extraction and Analysis – 14 Days

Also, immediately following the project launch the Data Lead will submit a preliminary data request, which will evaluate the quality of the Computer Aided Dispatch (CAD) system data. This will be followed by a comprehensive request for data from the CAD system to conduct the response and workload analysis. This request requires a concerted effort and focused response from your department to ensure the timely production of required for analysis. Delays in this process will likely extend the entire project and impact the delivery of final report. The data team will extract one year's worth of Calls for Service (CFS) from the CAD system. Once the Data Team is confident the data are accurate, they will certify that they have all the data necessary to complete the analysis.

Milestone 3c – Data Certification – 14 days

Milestone 4a – Data Analysis and Delivery of Draft Data Report – 30 days

Within thirty days of data certification, the analysis will be completed and a draft, unedited data report will be delivered to the department for review and comment. After the data draft report is delivered, an on-site visit by the operations team will be scheduled.

Milestone 4b – Departmental Review of Draft Data Report – 14 days

The department will have 10 days to review and comment on the draft unedited data analysis. During this time, our Data team will be available to discuss the draft report. The Department must specify all concerns with the draft report at one time.

Milestone 4c – Final Data Report – 10 days

After receipt of the department's comments, the data report will be finalized within 10 days.

Milestone 5 – Conduct On-Site Visit – 30 days

Subject matter experts will perform a site visit within 30 days of the delivery of the draft data report.

Milestone 6 – Draft Operations Report – 30 days

Within 30 days of the last on-site visit, the operations team will provide a draft operations report to the department point of contact. Again, the department will have 10 days to review and comment.

Milestone 7 – Final Report 15 days

Once the department's comments and concerns are received by CPSM the combined final report will be delivered to the city within 15 days.

TOTAL ELAPSED TIME: 105 – 135 days

THE CPSM APPROACH

The CPSM team developed a standardized approach to conducting analyses of police departments by combining the experience sets of dozens of subject matter experts.

We begin projects with a request for data, documents, and worksheets.

Next, we extract raw data on calls for service from an agency's computer-aided dispatch system. The data are sorted and analyzed to identify performance indicators (i.e., response times, workload by time, multiple unit dispatching, etc.) for comparison to industry benchmarks. Performance indicators are valuable measures of agency efficiency and effectiveness. The findings are shown in tabular as well as graphic form and follow a standard format for

presentation of the analyzed data. While the format will be similar from community to community, the data reported are unique to the specific agency.

CPSM also conducts an on-site operational review. Here the performance indicators serve as the basis for the operational reviews. Prior to any on-site review,

agencies are asked to compile several key operational documents (i.e., policies and procedures, assets lists, etc.). Most on-site reviews consist of interviews with management and supervisors, as well as rank and file officers; attendance at roll calls and ride-alongs with officers. We review case files with investigators and observe dispatch operations to assess compliance with the provided written documentation.

As a result of on-site visits and data assessments, our subject matter experts produce a SWOT analysis (strengths, weaknesses, opportunities, and threats) of the department. We have found that this standardized approach ensures that we measure and observe all the critical components of agencies.

Additionally, this methodology can be integrated with ongoing support customized to the unique needs of your community. Strategic planning, risk assessment, and training services are also available to assist with the implementation of CPSM recommendations and developing new processes and programs that may arise as implementation evolves.

The following information describes the CPSM approach to studying, understanding, evaluating, and reporting on police departments around the country. Although no two police departments are the same, a standardized approach to department evaluation ensures a rigorous and methodological process that permits benchmarking, comparing, and assessing within the context of the best practices of American law enforcement. However, each locality has unique characteristics that present policing challenges. Integrating a standardized approach within the context of local variability permits an accurate assessment of the organization in its political environment, and further permits CPSM to offer recommendations that comport with the best practices in policing, yet customized for the client community.

Data....why data?

CPSM has found that there are tremendous amounts of data collected on a daily, even hourly basis on many departments. The challenge is how to access that data; how to clean that data; how to quantify that data; and how to present the product so that everyone understands.

CPSM does not use hypotheticals. We don't use "national averages" upon which to base our client team's individual recommendations and findings. We begin analyzing your data to establish your performance and paint a complete picture of how you are deploying with the accompanying results.

It is critical to have data and one of the biggest challenges for departments because rarely do they have the depth of our analytical team and its decades of research and trademarked processes. If we are going to recommend change and if our client team is going to make change – they need data to measure how it impacted their outcomes. It's not good enough to say, "this is what happens wherever." We need to provide you with the tools and launch point so that you can measure and report to your stakeholders – citizens, elected officials, appointed officials, and staff – how those changes affected the outcome.

The raw Computer Aided Dispatch data and our process is like a financial audit. No city, county or community ever imagines just skipping the annual audit. It's usually a mandate in the charter or state law. Yet we find few communities are willing to extend the same effort to delve into the operations of their largest emergency response departments whose actions can literally be life and death. Our process is the same for each community so that we can build national data reporting tables and compare you to like demographics, but we create our recommendations and findings based on your individual performance. The CAD system is also the official record of public safety services for communities. Like minute books for the city clerk, it is the record of times and actions taken by your response community. The information at dispatch needs to be collected; it needs to be correct; and it should be a resource to assist with decision making daily.

CPSM ensures this information and system is working and correct before we proceed to other facets of our work.

Begins at dispatch

Armed with the data and information we gather; we start your project at the dispatch center. Benchmarks have been established for dispatch centers across the country in National Fire Protection Association Standards (NFPA 1220, NFPA 1221, NFPA 1710, NFPA 1720, etc.). Many of those same benchmarks and standards have also been adopted by the Association of Public-Safety Communications Officials-International (APCO).

The dispatch protocols are continually being studied, particularly with the adoption of Priority Fire, Medical, and Police dispatch. The systems look at collecting what is happening, where, and alerting the right response to the right location for a positive outcome.

For that reason, it is important that two things occur at dispatch:

1. Caller expectations be established. In other words, if the dispatcher tells the caller that police will be "right there," the expectation is immediate response. Instead, dispatch centers should advise callers that police are tied up on other calls and establish expectations for service delivery.

CPSM®

Center for Public Safety Management, LLC

13

2. Calls should be categorized, monitored, and reported using multiple response time metrics. Crimes in progress and serious felonies should have established and monitored times. Outliers should be examined daily, and a report produced on why there may be extended time periods. For non-criminal and non-emergent calls, different metrics should exist with an explanation of why there were extended times.

Dispatch Metrics

CPSM will look at the dispatch center to determine how often calls remain in the queue, trends on when lengthy queues develop, and whether the dispatch center is evaluating their operations on a regular basis to determine if they are meeting national standards and benchmarks.

The time that a fire, police or EMS call occurs and for an alarm to be raised can vary from community to community. In urban, rural, and remote areas, it can be lengthy periods of time before a situation is noticed and the alert raised. In commuter communities, larcenies and break-ins may not be noticed until morning or people return home from work. These types of calls should be tracked independent of true emergencies to not corrupt the ongoing analysis of response times.

For call answering, we will benchmark your time against the latest editions of NFPA and APCO standards. In 2022, that time process changed. If your dispatch is not performing at these levels – or if they are not using metrics to constantly evaluate performance (particularly in emergencies requiring rapid response), your team needs to be able to intervene. CPSM finds many communities and dispatch centers do not regularly look at this critical step on the successful outcome matrix.

By establishing different metrics for evaluating emergency and non-emergency travel times, unrealistic expectations and demands will be removed from the patrol force. Every call is not the same and does not require the same response.

The travel time which will be reviewed by our expert Geographic Information and Data division.

14

Our data team will also begin to produce analytics that look at statistical information reported and compiled by a wide variety of agencies. Crime rate comparisons, clearance rates, crime trends analysis, and other information will be integrated with our client team information that they will be uploading to a secure site for our subject matter experts' review.

Armed with information, our Operations Team will work with the client team to evaluate the following major areas of operations:

I. Benchmark the Community

It is essential to understand the service levels, protection needs, community dynamics, and overall environment within which the police department operates.

The CPSM study may involve interviews directed at stakeholders in the community, which could include elected officials and employee labor representatives who would be contacted to solicit their opinions about the department, the public safety needs of their constituency, and the perceived gaps in service levels currently provided. CPSM may work with the agency to identify community members that can provide this important information. Additionally, the department will be compared to organizations of similar size with respect to crime, demographics, and cost-efficiency.

CPSM reviews Census Information that may flag key demographics to be studied further: are there minority populations and are there disparities in service? In actions? In communication?

II. Patrol Operations

Police agencies routinely speak about "recommended officers per 1,000 population" or a "National Standard" for staffing or comparisons to other municipalities.

There are no such standards, nor are there "recommended numbers of "officer per thousand". The International Association of Chiefs of Police (IACP) states; "Ready-made, universally applicable patrol staffing standards do not exist. Ratios, such as officers-per-thousand population, are totally inappropriate as a basis for staffing decisions."

Staffing decisions, particularly in patrol, must be made based upon actual workload and very few police agencies have the capability of conducting that analysis. Once an analysis of the actual workload is made, then a determination can be made as to the amount of discretionary patrol time that should exist, consistent with the local government's ability to fund.

CPSM's team of doctoral level experts in Operations Research in Public Safety have created **The CPSM Patrol Workload & Deployment Analysis System®** with the ability to produce detailed information on workload even in those agencies without sophisticated management information systems.

Using the raw data extracted from the police department's CAD system our team converts calls for service into police services workload and then effectively graphs workload reflecting seasonally, weekday / weekend and time of day variables. Using this information, the police department can contrast actual workload with deployment and identify the amount of discretionary patrol time available (as well as time commitments to other police activities).

Police service workload differentiates from calls for service in that calls for service are a number reflecting the incidents recorded. Workload is a time measurement recording the actual amount

CPSM®

Center for Public Safety Management, LLC

15

of police time required to handle calls for service from inception to completion. Various types of police service calls require differing amounts of time (and thus affect staffing requirements). As such, call volume (number of calls) as a percentage of total number of calls could be significantly different than workload in a specific area as a percentage of total workload. The graph below demonstrates this difference in units.

CPSM has found that the most effective way to manage operations, including policing, is to make decisions based upon the interpretation and analysis of data and information.

To achieve this, a data analysis of police department workload, staffing and deployment will be conducted. By objectively looking at the availability of deployed hours and comparing those to the hours necessary to conduct operations, staffing expansion and/or reductions can be determined and projected. Additionally, the time necessary to conduct proactive police activities (such as team-led enforcement, directed patrol, community policing and selected traffic enforcement) will be reviewed to provide the city with a meaningful methodology to determine appropriate costing allocation models.

Figure 7: Deployment and Main Workload, Weekdays, Summer

Workload vs. deployment analysis sample

This is one of the ways we show the amount of available, non-committed patrol time compared to workload. As you can see, we break out the various activities, convert them to time and then compare to available manpower. The deployment is based upon actual hours worked.

So, in this example, at noon there are

approximately 9 hours of work (including citizen-initiated and officer-initiated calls for services, including traffic) and administrative activities (meals, vehicle, reports, etc.). There are approximately 15 man-hours of available resources meaning that at that hour, on average, of the 15 officers on duty 9 are busy on activities.

The area shown in green and brown is uncommitted time. This is the area where staffing decisions impact – it becomes a policy issue as to how much uncommitted time a city wants and is willing to pay for.

CPSM White Paper on Staffing

CPSM and ICMA conducted research on staffing for police departments that led to a white paper released in 2013. More than 50 departments' data was analyzed for staffing, workload, and patrol trends across 24/7 and 365 days a year.

The subsequent white paper has been regularly used and quoted by the International Chiefs of Police, the Commission Accreditation of Law Enforcement Agencies, the Police Executive Research Forum and most consultants.

CPSM

Center for Public Safety Management, LLC

16

The white paper found that a best practice for evaluating departments would position 60 percent of the sworn resources into patrol activities. In addition, no more than 60% of their total available time would be encumbered with calls for service.

The research showed that when the 60% encumbered level was exceeded, officers moved from proactive into reactive mode. In other words, officers expected additional calls for service, understood there were no free resources, and thus disengaged and awaited dispatch to the next call in the queue at dispatch.

CPSM assembles the information on how much "time" is available, what various demands require against that time, and calculates a Saturation Index along with when the 60% is exceeded.

Using this data-driven approach, communities can determine how much un-encumbered time they desire and where they would like that time dedicated. It also allows communities to determine if additional staffing is needed, when, and how much.

The CPSM study will result in the calculation of service demands placed on the department, workload levels, service times for calls for service, and response times. The product of this analysis is the variance between service demands and available personnel, and appropriate recommendations made for staffing levels and an optimal deployment schedule to meet these service demands. This permits exploration of the following questions:

- What are the service demands made by the public as measured through the CAD system?
- Based on workload is the alignment of Districts and Divisions appropriate?
- Based on the workload is the shift schedule aligned appropriately and what alternatives to the current shift plan are most efficient?
- How many police officers and supervisors are needed to staff the patrol function in order to meet the workload demands placed on the agency?
- How long does it take to respond to calls for service (both response time and total time) and what ways are there to reduce these times?
- How many officers are assigned to each call and what are the ways to minimize these assignments?
- What categories of call, and in what frequency, does the agency handle and what measures can be adopted to minimize unnecessary responses?
- How much time is spent on administrative duties?
- How much time is spent on directed patrol activities and specialized enforcement?

Figure 8: Workload Percentage by Hour, Weekdays, Summer

Workload vs. Deployment – Weekdays, Summer

Avg. Workload:	6.5 officers per hour
Avg. % Deployed (SI):	57 percent

In addition to the analysis of patrol operations from the CAD system and workload, the CPSM

study will focus on the qualitative aspects of patrol. The study will observe officers on patrol through ride-alongs, interviews, and general observations. We will amass all available documents, plans, and data available to understand the patrol approach in the department. We will observe the special operations teams, the problem/nuisance unit, etc. to evaluate their role within the overall mission of the department and patrol operations. We will evaluate the performance of the units, identify improvement opportunities, and justify and recommend appropriate staffing levels

Our GIS team will use the analyzed data sets to identify high crime

locations, high accident locations, and "repeat calls for service" locations.

The CPSM study will also evaluate the implementation of technology on patrol, weapons available, and equipment used with opportunities for improvement.

CPSM advocates community policing as its operational philosophy. The CPSM study would evaluate the implementation of community policing, in quantifiable and anecdotal terms, and identify improvement opportunities where appropriate.

Similarly, the CPSM study would evaluate the relationship of patrol operations with the rest of the department. To what extent does this bureau work, coordinate, and communicate with the other operational and support functions of the department? How should it? What are the strategic, management, and planning functions of the department with regards to the patrol function and how does patrol operations respond to the mission of the organization? How are crime, traffic, disorder, and quality of life problems handled?

III. Investigations

The CPSM study will assess investigations – both reactive and proactive. The CPSM team will explore the following questions:

- Staffing – Are there enough investigators available to handle the workload?
- Workload – What is the workload; how many cases do investigators handle; is the specialization appropriate?
- Case management – Is there an effective case management system in place?
- Effectiveness & Efficiency – How much time does it take to investigate cases? Are victims kept informed? Are cases cleared and offenders held accountable? How much overtime is spent?
- Intelligence – How is intelligence gathered and disseminated (inside and outside the department)? Does the investigations' function make use of intelligence?
- Civilianization opportunities – What are the potential areas for civilianization?
- Technological opportunities – Is technology being leveraged to improve investigations?
- Crime scene – Are crime scenes being processed efficiently, and are appropriate follow-up investigations being conducted?

CPSM[®]

Center for Public Safety Management, LLC

18

- Proactive Investigations – the same approach and inquires found in sections above are applied to each specialized investigative unit in the department.
 - Narcotics
 - Violent Offenders
 - Warrants and Fugitives
 - Bombings and Arson
 - Fraud/Cyber crimes
 - All other specialized investigations units

CPSM will essentially evaluate each investigative unit operating in the agency. This evaluation will assess the performance of the unit, how the unit operates within the overall mission of the department, compare operations to best practices in law enforcement, identify improvement opportunities, and identify appropriate staffing levels.

IV. Administration and Support

Once again, CPSM will evaluate every administrative and support unit in the police department. This evaluation will involve:

- Staffing.
- Workload.
- Civilianization possibilities.
- Cost saving opportunities.
- Outsourcing opportunities;
- Best practice comparisons and opportunities for improvement.

Departments across the country are struggling with recruitment, retention, and attracting candidates for sworn positions. We will look at opportunities that the department can use non-sworn personnel for non-criminal activities and keep sworn officers available for calls for service requiring certified officers.

The CPSM team has subject matter experts in police management and administration and will explore administration and support activities in the area of professional standards (Internal investigations, hiring and recruitment, disciplinary system,

promotional system), training (both academy and in-service), records management, evaluating the critical, frequent, and high liability policies, facility, fleet, equipment, information technology, property management system, laboratory, planning and research, sick-time management, overtime, communications and dispatch, etc.

In general, we look at every unit identified as a discrete operational/support entity for the following:

- Describe the functions of the unit.
- Evaluate the performance of the unit. In most cases this is a quantitative evaluation, but in units not appropriate for quantification, a qualitative evaluation is provided

- Identification of improvement opportunities
- An evaluation and justification, and recommendation for appropriate staffing levels.

V. Operation of Evidence and Property

CPSM will conduct a review of the evidence room and evidential processes of the department. We will determine if there is adequate staffing and a technology system for managing property and evidence.

CPSM starts by looking at the intake process: When officers seize property or evidence what occurs next? How are items transported to the evidence facility and what are the next steps?

We will look to create totals for the workload of not only the evidence and property but other component functions of the department.

This data should be a performance benchmark, as it reflects an effective operation.

Items in inventory	69,448
Items received	18,202

VI. Duty to Intercede and Report, De-escalation Provisions

In recent years, law enforcement agencies nationwide have begun to include duty to intercede and report provisions in their use of force policies. Duty to intercede requires an officer to intercede if they witness a department member using force that is clearly beyond that which is necessary, as determined by an

objectively reasonable officer under the circumstances. A duty to report policy requires any officer who observes a law enforcement officer or an employee use force that potentially exceeds what the officer reasonably believes to be necessary to report such observation to a supervisor.

Sample Duty to Intercede and Report policy from Lexipol states:

Any officer present and observing another law enforcement officer or an employee using force that is clearly beyond that which is necessary, as determined by an objectively reasonable officer under the circumstances, shall, when in a position to do so, intercede to prevent the use of unreasonable force. Any officer who observes a law enforcement officer or an employee use force that potentially exceeds what the officer reasonably believes to be necessary shall promptly report these observations to a supervisor as soon as feasible.

In addition, de-escalation requirements have been incorporated into use of force policies. This policy requires officers to utilize de-escalation techniques, crisis intervention tactics, and other alternatives to force when feasible. "Feasible" has been defined for policy purposes in some jurisdictions as, "Reasonably capable of being done or carried out under the circumstances to successfully achieve the arrest or lawful objective without increasing risk to the officer or another person."

Review of Use of Force Incidents

CPSM will review policies that authorize deadly force when an officer is justified and what actions were taken in monitoring, documenting, and investigating police use of force.

VII. Organizational Culture

During the operational evaluation described above, organizational "themes" emerge. What does the department "think" about providing police service to the community and how does this thinking align with the stated mission and department policies? How does the department interact with the community and internally with its own members? In general, what is the culture of the organization?

The culture of a police organization reflects its members and the community it serves. Through focus groups, interviews, and observations, the CPSM team will evaluate operational readiness and need. This part of the CPSM study is critical to the overall success of the project as it provides a better understanding of the police department and how the workload, staffing, and community dynamics shape the mission, goals, operations, and needs of the organization. In addition, as an option, every member of the department can be given the opportunity to participate in an anonymous survey. This survey is designed to understand the culture of the department, assess internal and external communications, and determine what it "thinks" about various elements of organizational life.

VIII. Health and Safety

Officer health and mental health are extremely important. In 2022, more officers died from suicide than in other line-of-duty incidents.

CPSM will review what programs the department has in place and during interviews, charrettes, and focus groups will seek to determine how those programs are being received.

IX. Performance Management

The overarching philosophy of the CPSM approach is to evaluate the police department in terms of performance management. Identifying workload, staffing, and best practices is just the beginning. It is also important to assess the organization's ability to carry out its mission. Essentially, does the police department know its goals, and how does it know they are being met. It is very difficult for an organization to succeed at any given level of staffing unless it has a clear picture of success. How does the department "think" about its mission, how does it identify and measure what's important to the community, how does it communicate internally and externally, how does it hold managers accountable, and how does it know the job is getting done? The CPSM team will evaluate the department and make recommendations to assist with improving capacity in this area, if necessary. In addition, CPSM can offer performance management training and mentoring services to support organizational success.

EXHIBIT B
COMPENSATION SCHEDULE

PROPOSED FEES

The quotation of fees and compensation shall remain firm for a period of 90 days from this proposal submission.

CPSM will conduct the analysis of the police department for \$84,500 exclusive of travel. The project would be billed in three installments: 40% upon contract signing; 40% with delivery of the draft police data analysis; and the remaining 20% with delivery of the draft final report. Following delivery of the draft reports, the city will have 30 days to provide comments as to accuracy, and a final report will be delivered within 30 days of the comment period.

Because of the possibility of Covid restrictions, CPSM will bill travel expenses at actual cost with no overhead or administrative fees applied. Should travel be restricted, CPSM has found work can be done using web-based platforms if necessary, but that charrettes and focus groups lose some of the robust participation developed through in-person interaction.

Deliverables

Draft reports will be provided for department review in electronic format.

To be ecologically friendly, CPSM will deliver the final report in computer readable material either by email, CD or both. The final reports will incorporate the operational findings as well as data analysis. Should the municipality desire additional copies of the report, CPSM will produce and deliver whatever number of copies is requested, which will be invoiced at cost.

Should the local government desire additional support or in-person presentation of findings, CPSM will assign staff for such meetings at a cost of \$2,500 per day/per person plus travel expenses.

CONCLUSION

Part of ICMA's mission is to assist local governments in achieving excellence through information and assistance. Following this mission, Center for Public Safety Management, LLC acts as a trusted advisor, assisting local governments in an objective manner. CPSM's experience in dealing with public safety issues combined with its background in performance measurement, achievement of efficiencies, and genuine community engagement, makes CPSM a unique and beneficial partner in dealing with issues such as those being presented in this proposal. We look forward to working with you further.

Site Plan

BACKGROUND INFORMATION:

The site is currently zoned AG-1 (Agricultural). A request to rezone the subject property to CUP (Community Unit Plan) from AG-1 was presented to Planning Commission on September 15, 2020 (Z20-002). The applicant at that time (Udi Goldstein) withdrew the application on November 10, 2020. A new rezoning request was submitted to the Planning Division and Planning Commission held a public hearing on August 24, 2022. The item was deferred to allow the Applicant to host additional community meetings. The Applicant changed the rezoning request from CUP to R-4A. The revised site plan includes 21 single-family dwellings, a walking trail, and green space areas.

ANAYLSIS:

The City's land use policy documents support the rezoning request. The City of South Fulton 2021 Comprehensive Plan has designated the parcel to be Suburban Neighborhood. The Suburban Neighborhood character area intends to provide a wide diversity of housing types and affordability in the City of South Fulton while preserving the surrounding natural, agricultural, and rural areas. Suburban Neighborhood character area supports a mixture of zoning districts including R-4A (Single-Family Dwelling).

In addition, the site is located within the Sandtown Overlay District, which includes specific architectural requirements and development standards for new developments. Section 512.02 entitled **Purpose and Intent of the Sandtown Overlay District** the zoning ordinance, states that the intent and purpose of this overlay is to seek to promote accepted design principles in areas of new development and redevelopment, to raise the level of community understanding and expectation for quality in the built environment, to protect and enhance local aesthetic and functional qualities, and to stimulate business and promote economic development.

The Applicant is proposing to rezone the site to R-4A (Single-Family Dwelling) zoning district which is intended to provide land areas devoted to moderate density residential uses and single-family subdivisions.

Section 512.04 entitled **Architectural Review Process** of the zoning ordinance, states that Prior to the issuance of a land disturbance permit (LDP) or a building permit, the Applicant shall submit details of exterior materials, colors, landscape strips, buffers, signage, lighting, parking, streets and paths, entrances, design and architectural features of the proposed site and building which demonstrate compliance with the design standards set forth herein.

The density of the project has been reduced from 32 single-family units to 26 units and further reduced from 26 units to 21 units.

PUBLIC PARTICIPATION:

Several community meetings have been held on August 9, 2022, and January 19, 2023. A virtual zoom option was also provided. The Applicant has held additional community meetings to incorporate some of the recommendations of stakeholders and to address stakeholders' concerns. Some concerns raised by the community included housing costs, traffic, sewer connection, age requirement and parking.

ZONING IMPACT ANALYSIS

Standards for review of propose rezonings.

1. **Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property.**

There are existing single-family developments that surrounds the site. The zoning proposal appears suitable in the view of the use and development adjacent to the property.

2. **Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property.**

The additional residential uses proposed will not have a negative impact on the adjacent properties which are also zoned for residential uses.

3. **Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned.**

Yes, the site has a reasonable economic use as currently zoned. The applicant can sub-divide for single family homes or use the site for agricultural related activities.

4. **Whether the zoning proposal will result in a use which will or could cause an excessive burdensome use of existing streets, transportation facilities, utilities, or schools;**

No, the proposed development is not expected to overburden public resources.

5. **Whether the zoning proposal is in conformity with the policies and intent of the land use plan;**

Yes, the proposed request is in compliance with the Land Use Plan. The Future Land Use category is Suburban Neighborhood which allows up to 8 units per acre.

6. **Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal; and**

No, there are no other pertinent conditions or concerns with this site.

7. **Whether the zoning proposal will permit a use which can be considered environmentally adverse to the natural resources, environment and citizens of City of South Fulton.**

 SINGLE-FAMILY HOMES CONCEPT **MONUMENT SIGN**

[Redacted]

BACKGROUND INFORMATION:

The City of South Fulton City Council voted to deny a rezoning application for Proterra Development LLC (Case Number Z-21-011) on July 27, 2021. The request was to rezone from R-3 (Single-Family Dwelling) to Townhome Residential (TR). The original development included the construction of 54 townhome units, with a proposed density of approximately 4.93 DU/acre. The project site is 10.96 acres, located south of Estes Dr., north of Sable Run Rd. and west of Buffington Rd. in District 5.

The proposed project is consistent with the Suburban II Neighborhood land use designation based upon the 2035 Fulton County Comprehensive Plan since the City's 2021 Comprehensive Plan was not adopted until December 2021. The intent of the Suburban Neighborhood Character Area is to provide a wide diversity of housing types and affordability in Unincorporated Fulton County while preserving the surrounding natural, agricultural, and rural areas. The area is further subdivided into two levels, Suburban I and Suburban II, which represent a transitional density from the less intense uses near rural areas to the more intensive suburban uses.

The City has worked with Proterra Development LLC to reconfigure the project site to replace the townhome concept with single-family homes. The Applicant has revised the site plan to reduce the number of residential units from 54 townhomes to 46 Single-family homes. A rezone from R-3 (Single-Family Dwelling) to R-5A (Single-Family Dwelling) is also being requested and R-5A would be more compatible with the surrounding neighborhoods.

ANALYSIS:

The Applicant has revised the project to reduce the number of units from 54 to 46 detached single-family homes and has further revised the number of units from 46 to 33 units based on concerns from community members. The density was one of the factors why the project was denied by City Council. Other features of the development include children's playscape, walking trail, dog park, community garden and open space areas. Community Unit Plan (CUP) Zoning Districts are located to the north and south of the project site and these areas are denser than the project site. The development represents a clustered approach to maximize greenspace.

The City has sent out a public notice to all stakeholders within a one-mile radius. The developer has considered the concerns expressed by residents to improve on the overall design of the project.

The Comprehensive Plan outlines a development standard in the Quarry Impact Overlay Area that recommends that no new residential development should occur within ¼ mile of an active Quarry site and within ¼ to ½ mile of an active quarry: no new residential development is appropriate without documented scientific data that clearly indicates that there will be no negative impacts on residential properties from quarry blasting and digging operations.

Staff will offer a condition that prior to the issuance of a Land Disturbance Permit (LDP), the Applicant is required to submit evidence that a residential development can be constructed in accordance with this development standard as outlined in the Comprehensive Plan and consistent with additional developments standards related to the Quarry Impact Areas as outlined in the Zoning Ordinance.

PUBLIC PARTICIPATION: The Applicant held a public participation meeting on November 3, 2022 at 6:30 pm via Zoom. There were some general questions regarding traffic and costs for housing. The Applicant and the City held an additional community meeting on January 17, 2023, to discuss a reduction of housing units and more available greenspace.

ZONING IMPACT ANALYSIS

Standards for review of propose rezonings

1. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property;

The adjacent properties are zoned and being used as single-family residential with different densities. The proposed zoning will permit a use that is suitable and compatible with adjacent properties.

2. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property;

The proposed rezoning and development is adjacent to CUP (Community Unit Plan), R-3 (Single-Family Dwelling), and R-4 (Single-Family Dwelling) Zoning Districts. Furthermore, the proposed zoning will not adversely affect the existing use or usability of adjacent or nearby properties.

3. Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned;

As currently zoned, the property is permitted for certain uses. Example of those uses are Single-Family Detached dwellings, Conservation Subdivision, Horse Stables, Guest House, Home Occupation, Recreational Courts, and more. Using the subject property as residential use, would be a reasonable economic use a currently zoned.

4. Whether the zoning proposal will result in a use which will or could cause an excessive burdensome use of existing streets, transportation facilities, utilities, or schools;

If approved, staff do not foresee the zoning proposal causing an excessive burdensome use of existing streets, transportation facilities, utilities, or schools.

5. Whether the zoning proposal is in conformity with the policies and intent of the land use plan;

The proposed zoning request is consistent with the 2021 City of South Fulton Comprehensive Plan.

6. Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal;

No, there are no other pertinent conditions or concerns with this site.

7. Whether the zoning proposal will permit a use which can be considered environmentally adverse to the natural resources, environment and citizens of City of South Fulton.

Due to the proximity of the project to Quarry Impact Area, staff has conditioned the site to comply with technical reports and studies (geotechnical requirements) prior to the issuance of a Land Disturbance Permit (LDP) to address environmental concerns.

C0-10

BACKGROUND INFORMATION: The Recycling Center has been operating since 2009. Since the city's incorporation, the site has been zoned M-2 (Heavy Industrial). The subject property is currently being used a recycling facility that includes recycling plastics, metals and cardboard. The applicant is proposing to add a solid waste component. The building is located in northern Fulton Industrial Boulevard within an existing industrial park. The expansion will be in an area that is currently undeveloped; no trees will be removed to accommodate the expansion of the proposed use.

ANALYSIS: The City's land use policy document does support the proposed expansion. The City of South Fulton 2021 Comprehensive Plan has designated the parcel with the Industrial Zone land use designation. The Industrial Zone Character Area intends to preserve the integrity of industrial and manufactures uses in the City of South Fulton and the impact on surrounding neighborhoods. Within this area, the following zoning districts are consistent with the intent: O-I (Office Institutional), M-1 (Light Industrial), and M-2 (Heavy Industrial). The expansion of the transfer station must obtain a Special Use Permit (SUP) to operate a transfer station/ solid waste if a SUP was not previously issued to operate the primary use.

The waste management equipment will be placed in an area that is already developed or paved. This construction will include underground utilities and storm-water management. The transfer station is a permitted use and any additions to the use must obtain a Special Use Permit. Staff will provide conditions to ensure safety and minimize environmental impacts.

PUBLIC PARTICIPATION: The Applicant held the public participation meeting on November 2, 2022 via zoom. The primary comment was the concern of how to help reduce the environmental impact of waste control.

SBT Mission

Sustainable recovery of the resources in solid waste

- Maximize landfill diversion
- Extend the useful life of current landfill assets
- Fix a broken recycling system
- Municipal solid waste (MSW) landfills are the third-largest source of human-related methane emissions in the United States, accounting for approximately 15.1 percent of these emissions in 2019.

Circular economy enabler

- Reliable and dispatchable renewable energy
- Viable source of feedstock
- Flexibility for local markets

Municipal solid waste: a ubiquitous and abundant feedstock

- 295 million tons of MSW generated yearly in the US (4.5 lbs. per-capita) trending up
 - More than 50% organics, trending up.
 - Increased disposal and energy recovery by incineration is unattractive.
 - Large regional variability (e.g. landfill rates vary between 30% and 80% between US States).
- Recycling rates are declining and likely overestimated.
- Landfilling still the prevalent disposition methods.
- Landfill diversion is a key goal in many geographies.

Burcell South Fulton will be a waste to energy facility at the existing waste processing center owned by Waste Pro in the City of South Fulton. The current facility has been operating processing trash for over 14 years the old fashion way. It will be transformed into an advanced waste management facility designed to efficiently separate municipal solid waste (MSW) into 2 primary fractions, one organic (food waste, paper, and cardboard) and one recyclable, each homogenized and pasteurized, to capture their value and divert over 95% of the organic waste (66% of MSW) from landfills. The project will harness the proprietary Burcell System to cost-effectively separate, treat and homogenize organic waste from non-organic waste and convert it into high-value material for solid recovered fuel and renewable natural gas (RNG).

We start with raw MSW right off the trash truck.

This is MSW after the Burcell process has sanitized and homogenized the organics.

This is MSW after screening and now a feedstock for our Anerobic Digestion to Green Energy Process. This renewable energy will replace fossil fuels across Georgia.

Our finished briquets. MSW transformed into Fuel alternatives to coal and NG.

- Our digester design fits well into an industrial Urban setting

Air Quality

- The proposed facility is expected to be considered a minor source of air emissions by the Georgia Environmental Protection Division (EPD). Our minor source air permit would be similar to the ones obtained by facilities such as schools and hospitals. Our facility will obtain all appropriate air quality permits from EPD prior to construction to ensure there are no undue impacts to air quality. EPD's air permitting evaluation will, as it always does, consider possible health concerns at the facility fence line and ensure that there will be no adverse health effects.

VIII. Intent

The City is issuing this RFP to secure curbside collection services for residential household garbage, with a strong preference for curbside bulk waste collections to include certified freon-free white goods. Other proposed options are included for consideration.

It is the intention of the City of South Fulton to enter into a service contract with the qualified Provider having the best and most detailed proposal for accomplishing the tasks outlined, at the lowest responsible cost. Each proposal shall have each cost broken out separately for each service requested. The City reserves the right to award the contract in whole or in part into two semi-equal zones.

The City will be awarding based on this RFP using one of two selection alternatives based on proposals: Please see Appendix A for city council district maps

1. A single award for exclusive citywide residential and cart services.
2. Awarding two semi-equal contracts splitting the City into two zones
 - a. A selected provider will be grant exclusive rights within the designated zone. Zone proposal maps will be discussed at the pre-proposal meeting in order to best understand and gather input from the Providers how to best divide the City into two desirable zones.
 - b. Based on submitted proposals and the ability to best serve residential customers the City will consider awarding the contract in whole or splitting the contract.
3. Providers are requested to select if they are bidding on the whole City and/or a City Zone.

IX. Billing

The Provider is not expected to invoice residents for service.

The Provider will invoice the City on a monthly basis. All invoices will be paid net 30 days based on terms of the approved contract.

X. Term

The initial term of the contract shall be for four (4) years. It is anticipated that the agreement shall be automatically renewed after the initial period for an additional two (2) years, unless either party provides notice of non-renewal 180 days prior to end of term. The City Council reserves the right to negotiate automatic renewals beyond the initial 4 years during the development of the contract.

The contract once signed cannot be transferred or assigned to another company without the written consent of the City Council. Any actions to transfer or assign the contract to another provider will be grounds for the City to void the contract.

XI. Examination

The Service Provider is advised to examine all documents and current parameters of the services in becoming fully informed as to their conditions. This includes the conformity with specific standards and the character, quality and quantity of the reports and services provided. Failure to examine these areas will not relieve the successful Service Provider of the obligation to furnish all products and services necessary to carry out the provisions of the contract.

XII. Performance Prior to the Execution of the Contract

The successful provider shall not begin performance prior to the execution of a formal written contract signed and awarded to the provider under the terms of this proposal. Any performance prior to the execution of the contract without written approval from the City may not be compensated for such performance.

This does not limit any provider from conducting predetermined services that were entered into with other parties until an agreement is formally executed.

XIII. Method of Source Selection

The City will base its choice on considerations including, but not limited to, unit prices and the clear ability of the Provider to successfully perform the function identified under this RFP. The City may conduct such investigations as deemed necessary to assist in the evaluation of any bids received and to establish the best proposal.

The City is using the competitive sealed proposals method of source selection, for this procurement. An award, if made, will be offered to the responsible Provider or combination of providers as described in Section VIII, whose proposal is most advantageous to the City, taking into consideration the factors set forth in this RFP. The City shall accept for review, all proposals that are submitted properly.

It is anticipated that the City will review the proposals in accordance with the following criteria:

- 1) Scope of Services and Methods of collection including the use of technology. – 45%**

- 3) Capabilities, Performance and Company history with similar projects – 10%**
- 4) Reporting – 5%**

Should it become necessary, the Solid Waste Coordinator may negotiate with the top two ranked proposal for clarification and to determine the most advantageous benefits to the City. If negotiations with the highest-ranking Providers fail, negotiations shall be initiated with the next highest-ranked qualified Provider, until an agreement is reached. The City reserves the right to reject all offers and end the process without executing a contract.

The City reserves the right to waive minor irregularities in proposals and reserves the right to request clarifications or corrections to proposals. Any such waiver shall not modify any remaining RFP requirements or excuse the Provider from full compliance with the RFP specifications and other requirements if awarded the contract.

GOVERNMENT OF THE CITY OF SOUTH FULTON

MEMORANDUM

TO: Mayor and City Council

FROM: Tammi Saddler-Jones, City Manager

SUBJECT: Discussion and Recommendations for Citywide Fee Schedule

MEETING DATE: November 15, 2022

CC: Corey Adams, City Clerk

ATTACHMENTS: City of South Fulton Fee Schedule Revised Nov. 2022

BACKGROUND

During the FY 2023 Budget Presentation, City staff discussed the need to review the current Citywide Fee Schedule to determine if current fees should remain at the same level or if fees should be increased to align with rising costs to conduct business. The City approved the last fee schedule in May 2020. This increase marked the second fee increase since the City's incorporation in 2017.

To undertake this Fee Schedule assessment, each department conducted an analysis of fees based on the following tasks:

- Convened a committee of staff members to review current fee schedule;
- Assessed if current fees were adequate based on the associated tasks to complete reviews;
- Compared current Department fees against other Metro Atlanta cities and counties;
- Calculated the number of hours required to process applications;
- Identified new fees that should be included in Fee Schedule;
- Conducted Best Practices research on considerations of Fee Schedule increases.

Staff will provide a presentation to Mayor and Council to summarize proposed updates to the Fee Schedule at the November City Council meeting.

ANALYSIS

During the Fee Schedule analysis, several departments indicated that current fees did not appropriately account for processing times of various applications:

CDRA

- Special Events Permits (Reviewed by approximately six departments and outside departments depending on size of event)
- Rezoning Applications (Reviewed by ten departments and divisions and results in multiple reviews at Planning Commission and City Council)

Court

- Disposition Fee (Copy) In Person only, Court Fees and No Insurance should be increased to pay for actual costs.

Police Department

- Retail Consumption on Premises for Liquor has not been updated since 2015
- Retail Package for Distill Spirits, Liquor and Wine additional fees needed to continue to effectively regulate alcohol process. No change in fee since 2015

City Department Heads and their staff will be on hand to provide detailed explanations of proposed fee increases. In addition, the Finance Department will present charts and graphs for revenue for FY 22 and proposed revenue projections based on proposed fee schedule increases for FY 2023.

The proposed revised Fee Schedule is attached to this staff report and the City will accept comments from the public through December 12, 2022 to provide input on the proposed fees. The proposed fee schedule is available for review on the City's website at www.cityofsouthfultonga.gov.

CITYWIDE FEE SCHEDULE

This revised fee schedule was approved by Council on May 26, 2020.

PROFESSIONAL SERVICES AGREEMENT

THIS AGREEMENT is entered into by and between the CITY OF SOUTH FULTON, GEORGIA, (hereinafter referred to as “the City”), and CPL Architects, Engineers, Landscape Architect and Surveyor, D.P.C. WHEREAS, the City desires to engage Contractor to provide services as more fully described below, and Contractor desires to provide such services in accordance with the terms and conditions of this Agreement; and

NOW, THEREFORE, in consideration of these premises and the mutual promises and agreements hereinafter set forth, the Parties hereby agree as follows:

1. Acceptance. This Agreement, together with any documents incorporated herein by reference, constitutes the sole and entire agreement of the Parties and supersedes all prior or contemporaneous understandings, agreements, negotiations, representations and warranties, and communications, both written and oral, unless a separate overriding written contract has been entered into and signed by the Parties. 4. Compensation. The City agrees to pay Contractor in accordance with Exhibit “B” attached to this Agreement and incorporated by reference herein (the “Compensation Schedule”). Additional fees shall be discussed and agreed upon before Contractor can proceed. The City shall pay Contractor within 30 days of receipt of Contractor’s invoice in approved form. The City shall endeavor to pay invoices on time; however, no interest shall accrue on past-due amounts. If the foregoing causes are remedied, then withheld payments shall be made promptly, and if not remedied within a reasonable time, the City may terminate this Agreement in the manner provided for herein.
5. Budget. Either Party may terminate this Agreement for cause by giving the other Party hereto thirty (30) days written notice of termination. The City shall not be required to give the Contractor such thirty (30) day written notice if, in the opinion of the City, the Contractor is unable to perform its obligations hereunder, or if in the City’s opinion, the services being provided are not satisfactory. In such case, the City may immediately terminate the Agreement by providing a written notice of termination to the Contractor. Termination with cause shall include, but not be limited to, the discovery of improper or inappropriate accounting, expenditures, reporting or service delivery by the Contractor or due to the discovery of noncompliance with any item detailed within the sections of this Agreement.

In the event of termination of the Agreement for any reason by the City, the City shall pay those amounts, if any, due and owing to the Contractor for services actually rendered up to and including the date of termination of the Agreement and for which the City is obligated to pay pursuant to this Agreement.

8. Confidentiality. Without limitation to the generality of the foregoing, Contractor agrees to comply with any special conditions, undertakings or representations attached hereto, all of which form a part hereof.
11. Independent Contractor. Nothing stated in this Agreement is intended or should be construed in any manner as creating or establishing a relationship of co-partners between the parties, or as constituting the Contractor (including its officers, employees, and agents) as the agent, representative, or employee of the City for any purpose, or in any manner, whatsoever. The Contractor is to be and shall remain forever an independent contractor with respect to all Services performed under this Agreement.
12. Standards of Conduct and Sexual Harassment. Contractor agrees that the Contractor and any of its agents, employees, officials or subcontractors who enter any facility, institution, office or other premise of the City or who come into contact with any employee of the City shall comply with the City's Policies and Procedures relating to Standards of Conduct and Sexual Harassment and shall follow all orders or directives given by City personnel. If the Contractor or any of its agents, employees, officials or subcontractors should be accused of violating any of these policies or procedures or otherwise violating this provision, then the Contractor will allow and assist the City in investigating the charge or accusation. The City may, at its sole discretion, defend itself or allow the Contractor to provide the defense.
16. Amendment. The Parties recognize and agree that it may be necessary or convenient for the Parties to amend this Agreement so as to provide for the orderly implementation of all of the undertakings described herein, and the Parties agree to cooperate fully in connection with such amendments if and as necessary. However, no change, modification or amendment to this Agreement shall be effective unless the same is reduced to writing and signed by the Parties hereto.

26. Waiver. The failure of either Party to exercise or enforce any right conferred upon it hereunder shall not be deemed to be a waiver of any such right nor operate to bar the exercise or performance thereof at any time or times thereafter; nor shall its waiver of any right hereunder at any given time, including rights to any payment, be deemed a waiver thereof for any other time.

27. Counterparts. This Agreement may be executed in multiple counterparts, each of which shall be an original but all of which shall constitute one agreement. No party shall be bound by this Agreement until all parties have executed it.

Licensee desires to repair two (2), seventy-two inch (72") diameter storm sewer pipe lines (collectively, the "Pipe Line") more particularly described in Licensee's application marked as Exhibit "A", at or near the City of South Fulton, County of Fulton, and State of Georgia (the "Premises"), in the location described on Exhibit "B", attached to this License and made part of it by this reference, but generally described as follows:

WITNESSETH:

1. TERM:

This License shall take effect as of the Effective Date for 12 months and will automatically renew unless sooner terminated as provided below, shall remain in effect until either Party shall give the other Party not less than thirty (30) days' written notice to terminate for any reason whatsoever in that Party's sole discretion and regardless of performance or non-performance of any of the covenants and agreements contained in this License and regardless of any fee having been paid in advance for any period and without regard to any loss or damage incurred by either Party as a result of such termination or cancellation. Licensor will not execute this License until it receives a signed original from Licensee, and in no event is entry under this License permitted until Licensor returns a fully-executed copy to Licensee.

2. LICENSOR GRANTS RIGHT:

Licensor grants Licensee a license to construct, use and maintain the Pipe Line at the location shown on Exhibit B subject to the terms and conditions set forth herein. Licensor will not execute this License until it receives a signed original or electronic signature copy from Licensee, and in no event is entry under this License permitted until Licensor has executed it. To the extent allowed or required by Georgia law the Licensee will pay any applicable tax to the Licensor on any payment of the license fee or administrative fee payable under this License, which payment will be made to the Licensor at the same time as the license fee or administrative fee is payable to the Licensor under this License. The failure by the Licensee to pay to the Licensor the amount of any tax or administrative fee owing and due hereunder will constitute a default by the Licensee under this License and will entitle the Licensor to exercise any and all rights and remedies available to the Licensor for the recovery of the license fee or administrative fee in arrears.

3. CONSTRUCTION OF PIPE LINE

- A. Licensors, at Licensee's sole cost and expense, shall furnish all labor and materials related to the emergency repair of two (2) collapsed pipe culverts that exist at a point near MP 10.46, as more particularly described on Exhibit "C" (the "Scope"). - A. Licensee shall pay to Licensors as a License Fee the sum of fourteen thousand U.S. dollars (USD \$14,000.00) per annum, payable in advance on or prior to the Effective Date of this License and any anniversary of the Effective Date during the term of this License. Licensee shall pay to Licensors any and all sales tax, if any and if applicable to the extent allowed by Georgia law, which may occur as a result of the payment of the above license or other fees payable under this License.
- B. To the extent allowed by Georgia law, Licensee shall pay to Licensors an additional sum of money equal to one and one half percent (1.5%) per month of the total unpaid License Fees stated above, any adjusted License Fees due pursuant to Section 3.E, and any additional fees provided for in this License in the event said License Fee, adjusted License Fee or additional fees are not received by Licensors within thirty days (30) from the date it (or they) is due and payable. The finance charge provided by this Section 3.B shall continue to accrue daily until the date payment is received by Licensors, not the date payment is delivered or the date postmarked on the payment.

- E. The payment by Licensee of any sum(s) in advance shall not create an irrevocable License for the period for which the same is/are paid. Licensors reserves the right to periodically adjust the License Fee by giving notice of such adjustment to Licensee at least ninety (90) days prior to the first of October of each subsequent year thereafter of the License. The use of the License created by this License by Licensee after such effective date shall be at such adjusted License Fee.
- F. Failure of Licensee to receive any bill for periodic License Fees owing or any other amount due under this License, or receipt of a bill in an incorrect or unadjusted License Fee, shall neither override the License terms in this License nor excuse nor release Licensee from liability or responsibility for the correct License Fee. Limitation on collection for any erroneous billings or payments shall be three (3) years from the termination of this License.
- G. In the event this License is terminated by notice of either Party, Licensors shall refund to Licensee the prorated portion ("Prorated Portion") of any prepaid License Fees plus any taxes paid in advance; PROVIDED, however, such refund shall not be made when the cumulative total of such repayment which would otherwise be due is less than one hundred dollars (\$100.00). Calculation of the prorated Portion

shall be made by dividing the current year's annual license fees actually paid by Licensee by twelve (12) and multiplying such amount by the remaining whole calendar months remaining in the calendar year.

This License is made without covenant on the part of Licensor to warrant its title to the property involved with the Pipe Line, or to give or to defend Licensee in the peaceful possession of the property and Licensee shall waive all right to claim damages in the event Licensee shall be evicted, ejected or required to surrender possession of the property by anyone owning or claiming title to or any interest in the property, or by reason of failure of title of Licensor, or for any other cause whatsoever. Licensee further agrees to indemnify and save harmless Licensor and to assume all risk, responsibility and liability (including any expenses, attorneys' fees and costs incurred or sustained by Licensor) arising from, growing out of, or in any manner or degree directly or indirectly attributable to or resulting from any deficiency or insufficiency of Licensor's title affecting the right of Licensor to make this grant.

- A. Licensee will at all times maintain the Pipe Line in a safe and secure manner and in a condition satisfactory to Licensor. Licensor may request Licensee to change the location of the Pipe Line, or any part of it, or to make reasonable repairs or changes as the judgment of Licensor deems necessary in order to avoid interference with or danger in the use or operation of Licensor's railroad, or any of its present or future appurtenances. In the event it is desired by Licensor to use its property or any portion of it, occupied or impacted by the Pipe Line, then Licensee shall, at its sole expense, and within thirty (30) days after notice from Licensor to do so, (or on shorter notice in case of an emergency), make changes to the Pipe Line as required or remove the Pipe Line, or as much of the Pipe Line as is located upon the portion of the property as required by Licensor.

- C. In case Licensor shall at any time, or from time to time, require the removal of only a portion of the Pipe

Line, this License shall continue in force and be applicable to the portion or portions of the Pipe Line remaining from time to time until the entire Pipe Line has been removed and the License Fees or other fees payable under this License shall be adjusted accordingly.

11. TERMINATION:

If Licensee fails to keep or perform any of Licensee's covenants contained in this License, or in the sole judgment of Licensor the use of this property or tracks make it impractical to maintain the existence of said Pipe Line as authorized in this License, Licensor has the right to terminate this License upon fifteen (15) days' written notice to Licensee.

12. RESTORATION:

Upon termination of this License, whether in accordance with the provisions of Section 1, 9 or 10 of this License, or otherwise, Licensee shall promptly remove the Pipe Line from Licensor's property, and restore the property to its prior condition, or a condition satisfactory to Licensor. If Licensee fails to remove the Pipe Line within thirty days (30) after termination of this License, Licensor may remove same, and charge the expense of such removal to the Licensee on the basis provided in Section 9.B of this License.

13. MISCELLANEOUS:

- A. This License is executed by all Parties under current interpretation of any and all applicable Laws. Further, each and every separate division (paragraph, clause, item, term, condition, covenant or agreement) contained in this License shall have independent and severable status from each other separate division, or combination of them, for the determination of legality, so that if any separate division is determined to be unconstitutional, illegal, violative of trade or commerce, in contravention of public policy, void, voidable, invalid or unenforceable for any reason, that separate division shall be treated as a nullity, but such holding or determination shall have no effect upon the validity or enforceability of each and every other separate division or any other combination of them.

- Use of Grade Instruments (laser type level and grade rod receiver) will be required
- Vendor partner will be required to perform and request any locates for utilities
- Vendor partner will need to provide schedule for estimation of completion and time needed
- Hi rail area to determine if additional spent concrete ties may be relocated to wash area to stabilize the banks and fill areas – UTILIZE AS MANY AS POSSIBLE
- Concrete ties will need to be relocated to work area by Contractor
- Mastic and sealer materials for concrete pipes to be provided by Contractor

Culvert Repairs

- Cut pad area for material on west side of railroad.
- Remove tree and minor debris from watershed area upstream of pipes.
- Temporarily relocate pipe sections from work area (chain and move to side).
- DO NOT EXCAVATE ROOTS of any trees from area.
- Care must be taken to avoid further damaging or removing any subgrade, slopes, or ballast materials around railway.
- Remove concrete ties dumped in culvert area and place them orderly to line banks currently washed out (immediately north and south of pipe). NO CONCRETE TIE SHALL BE OVER ANY PIPE!
- Build new floor for pipes at proper grade and clean bell of pipes not removed from current placement. Ensure that remaining pipes are properly bedded and material compact.
- Carefully replace pipe sections and seal each joint with tar and mastic material. Material should be pliable but seal pipe joints to prevent water from creating frost expansions.
- Ensure pipe sections are pushed tight together.
- Continue placement of sections until desired length to achieve proper restored slope.
- Stabilize banks at this time utilizing additional concrete ties to protect desired slope. Do not place any ties over any section of concrete pipes.
- Once all desired sections are placed and bank is stabilized, backfill and compact a crusher run type material in lifts not to exceed 6" per compaction.
- Utilize rail sections driven as pile to hold the outside lip of outermost pipe sections. Do not block outflow of pipe with the rail driven. Drive the rail at a 90-degree angle to track using the base against the lip. Railroad will supply and haul rail to work area for placement by others.
- Once all fill material is placed to a height 8" above top of pipe, and banks are completely stabilized with concrete ties, place rip rap to proper angle to restore slope and grade lines.
- Add ballast to top of project area to restore the ballast line of track.

Permits are not included in cost, unless specifically listed in pricing. If permits are required Signed/Sealed drawings are needed and are also not included unless specifically listed in pricing. Any costs for municipal permits, paid by installer, will be charged back to the owner. Adding permits to any job will increase the length of completion, expect total time to be about **150 days**, after receipt of Site Plan from owner/customer (this is not due to manufacturing but rather the permit process at the municipality level). It is expected that the **owner will provide approved site plans** of the area for the permit office, and will help and assist in the securing of all required approvals before assembly of equipment can begin. Installer cannot provide site plans. **The permit process can not begin until appropriate and current site plans are provided by owner.** If there are no current surveys or site plans available, the owner may be required to obtain a new survey for the permit. This is the responsibility of the owner to obtain. If additional permitting requirements are needed during the process, those will be added and billed accordingly, i.e. soil density test, formed footers, etc.

- 45.7 **WAIVER.** No delay or omission by either party to exercise any right or power it has under this Contract shall impair or be construed as a waiver of such right or power. A waiver by either party of any covenant or breach of this Contract shall not constitute or operate as a waiver of any succeeding breach of that covenant or of any other covenant. No waiver of any provision of this Contract shall be effective unless in writing and signed by the party waiving the rights.
- 45.8 **CHANGE IN CONTROL.** In the event of a change in "Control" of the Company (as defined below), the City shall have the option of terminating this Contract by written notice to the Company. The Company shall notify the City within ten days of the occurrence of a change in control. As used in this Contract, the term "Control" shall mean the possession, direct or indirect, of either (i) the ownership of or ability to direct the voting of, as the case may be fifty-one percent (51%) or more of the equity interests, value or voting power in the Company or (ii) the power to direct or cause the direction of the management and policies of the Company whether through the ownership of voting securities, by contract or otherwise.

The Company further agrees that it will at all times during the term of this Contract be in compliance with all applicable federal, state and/or local laws regarding employment practices. Such laws will include, but shall not be limited to workers' compensation, the Fair Labor Standards Act (FLSA), the Americans with Disabilities Act (ADA), the Family and Medical Leave Act (FMLA) and all OSHA regulations applicable to the work.

- 45.11 TAXES. The Company shall pay all applicable federal, state and local taxes which may be chargeable against the Products and/or Services.
- 45.12 SURVIVAL OF PROVISIONS: Those Sections of the Contract and the Exhibits, which by their nature would reasonably be expected to continue after the termination of the Contract shall survive the termination of the Contract, including but not limited to the following:
- Section 3 “Term”
 - Section 4.3 “Employment Taxes and Employee Benefits”
 - Section 13 “General Warranties”
 - Section 14 “Additional Representations and Warranties”

 - Section 34 “Indemnification”
 - Section 39 “Notices”
 - Section 42 “Confidentiality”
 - Section 45 “Miscellaneous”
- 45.13 NON-APPROPRIATION OF FUNDS. If City Council does not appropriate the funding needed by the City to make payments under this Contract for a given fiscal year, the City will not be obligated to pay amounts due beyond the end of the last fiscal year for which funds were appropriated. In such event, the City will promptly notify the Company of the non-appropriation and this Contract will be terminated at the end of the last fiscal year for which funds were appropriated. No act or omission by the City, which is attributable to non-appropriation of funds shall constitute a breach of or default under this Contract.

- 45.16 PRE-AUDIT. No pre-audit certificate is required under N.C. Gen. Stat. 159-28(a) because this Contract is for an indefinite quantity with no minimum purchase requirement. Notwithstanding anything contained herein to the contrary, this Contract does not require the City to purchase a single product or service, and a decision by the City to not make any purchase hereunder will violate neither this Contract nor any implied duty of good faith and fair dealing. The City has no financial obligation under this Contract absent the City’s execution of a valid and binding purchase order or contract addendum containing a pre-audit certificate.”

GAMETIME POLICIES

Specifications: Specifications were current at the time of publication. GameTime has an ongoing policy of product improvement and therefore reserves the right to modify specifications or discontinue products without notice.

Terms of sale: To governmental agencies and tax supported institutions, and those with approved credit, payment is due 30 days from the date of invoice. A 1.5% per month finance charge will be imposed on all past due accounts. We also accept payment by VISA, MasterCard or American Express. All other orders will require a 50% deposit at time of order entry. The balance will be due with a certified check upon receipt of shipment (C.O.D.).

Prices: Prices are F.O.B. factory and do not include freight charges. All prices were current at time of publication and quoted in U.S. Funds. Prices are subject to change without notice. Current prices will apply at the time of shipment. Due to the abnormally high cost of fuel and its impact on many of the materials used in our industry, quotations are valid for 30 days only and prices may be subject to material and fuel surcharges at time of shipment.

Freight charges: Freight charges are determined and collected by the carrier unless GameTime is requested and agrees to prepay and add these costs to the invoice.

Taxes: If applicable, taxes will be added to the invoice except when a tax exempt certificate is provided with the purchase order at the time of order entry.

Minimum Order: Our minimum order is US \$50.00.

Order cancellation: Once accepted, orders can be canceled only with the consent of GameTime, and on terms which will indemnify GameTime against loss. Canceled orders will be subject to a restocking fee. Equipment "built-to-order" is non-cancelable.

Domestic shipments: Unless specifically given routing instructions on the purchase order, shipment will be made via the carrier we consider to be the most economical and practical in reaching the final destination.

Delays in transit: GameTime is not responsible for delays in transit and such delays shall not alter our invoicing terms.

Loss or damage in transit: GameTime is not responsible for loss or damage in transit. Carefully check all materials received; any shortage, discrepancy or damage must be noted on the delivery receipt and signed by the carriers representative. Failure to note exceptions on the delivery receipt may impair your right to recovery from the carrier.

Weights: All published weights are estimated and include appropriate packing materials. Actual weights may vary slightly.

POURED IN PLACE (PIP) WARRANTY

Playground Equipment

GameTime warrants the GT Impax recycled poured rubber surface (referred to as PIP) installed and maintained in accordance to GameTime specifications, under this contract agreement for a period of five (5) years commencing from the date of substantial completion. This limited warranty shall provide for 100% of the cost for necessary repairs caused by the failure of the GT Impax PIP due to workmanship and materials only, and pertains only to the surfacing material agreed to under this contract.

Water Play Equipment

GameTime warrants the GT Impax recycled poured rubber surface (referred to as PIP) installed and maintained in accordance to GameTime specifications, under this contract agreement for a period of three (3) years commencing from the date of substantial completion. This limited warranty shall provide for 100% of the cost for necessary repairs caused by the failure of the GT Impax PIP due to workmanship and materials only, and pertains only to the surfacing material agreed to under this contract.

Water Play Equipment Only: If aliphatic binder is not used, poured rubber surfacing (PIP) will carry a maximum one-year (1) warranty.

This limited warranty includes GameTime's obligation to only repair and/or replace any defective materials or workmanship in the surface area or surface areas that have failed during the warranty period. A failed area or failed areas include edge raveling, bubbling, delamination, peeling, and loss of integrity as a result of the GT Impax recycled poured rubber degradation. GameTime is under no obligation or responsibility to repair and/or replace the GT Impax recycled poured rubber "PIP" surface if damaged during the curing process (Unless specified in contract), damage by vandalism (including stains, cuts, burns, gouges, etc.), product misuse, abuse or alteration, improper slab or base or sub-base design or construction, improper drainage, improper or lack of specified required maintenance, any foreign residue that may be deposited on the surface, normal wear and tear (including slight color variations, and color fading), damage from sharp objects (high heels, spikes, etc.), problems caused by moisture, alkali, hydrostatic pressure, cracking, shifting, or lifting of the substrate, or acts of God.

All warranty claims shall be made in writing to GameTime within thirty (30) days after the Owner has knowledge thereof, but in no event later than thirty (30) days after expiration of the warranty period. The written notification from the Owner shall include the following: the date of the first notice of the failure, details of the failure, photos of the failed area and a request for a warranty claim meeting with GameTime at the installation site (if applicable). GameTime shall not be responsible for warranty claims for any notices received from the Owner after thirty (30) days of Owner's first knowledge of the failure.

GameTime shall determine the validity of all claims after sufficient evidence has been gathered. GameTime shall then replace, repair or make a refund for any claims validated by it. Any refund, credit or allowance provided to the Owner on a warranty claim is exercisable only if said allowance is used to accommodate replacement with a GT Impax recycled poured rubber surface.

Any dispute as to whether and to what extent there is a GT Impax recycled poured rubber surfacing failure and a subsequent valid warranty claim within the meaning of this warranty shall be initially dealt with by joint investigation and discussion between GameTime and owner in order to achieve a mutually agreeable solution. If such a solution cannot be reached within thirty (30) days, then either the Owner of GameTime shall submit the matter to an arbitrator who is a member of the American Arbitration Association and who shall make a determination in accordance with the rules and regulation of said American Arbitration Association. The decision of said arbitrator shall be binding on both parties.

This limited warranty is exclusive of the underlying material (e.g. existing surface, existing or new asphalt, concrete, base, sub-base or sub-grade). If the underlying material fails for any reason whatsoever (including hydrostatic pressure, cracking, shifting, heaving), then GameTime warranty shall be rendered invalid. If the underlying material is concrete, a "curing agent" is NOT allowed, as it will probably cause delamination of the GT Impax recycled poured rubber. Additionally, there is no warranty against surface cracking along expansion joints and underlying cracks, or separating from an adjacent border, curb or walkway. This limited warranty does not include discoloration as a result of ultraviolet rays, unapproved cleaning materials or vandalism. **WARNING:** Surface temperatures can prove dangerous under warm weather conditions. Shoes and/or socks must be worn during warm weather conditions.

Owner agrees that it will not, under any circumstances, make alterations to the GT Impax recycled poured rubber surface without the written authorization of GameTime. Any unauthorized alteration by the Owner shall result in the immediate termination of all warranties for the GT Impax recycled poured rubber surfacing and shall also give rise to the duty of the Owner to hold harmless, defend and indemnify GameTime from any claim, suit or cause of action, personal injury, death, or property damage arising out of or related to said alteration.

This limited warranty is expressly made in lieu of any other warranties and is exclusive to the original Owner. Owner acknowledges that the limited warranty will be voided if the Owner fails to follow the GameTime Maintenance Guidelines provided by GameTime. Owner agrees that in no event shall GameTime have any liability to Owner for loss of use or loss of profits or any form of consequential damages. **NOTE:** The following chemicals can cause potential damage to the GT Impax recycled poured rubber and should be avoided: disinfectants, concentrated bleach, gasoline, diesel, hydraulic and lubricating oils, weak acids and organic solvents.

If the contract price is not paid in a timely manner as per the terms and conditions of the agreed contract, the limited warranty is automatically voided. Any damages to the surface during the curing period will be repaired or paid for at the Owner's expense. This limited warranty does not lessen or eliminate any other contractual obligation of Owner to GameTime.

PART 3 – SUB-BASE TYPES AND DETAILS

Sub-base Requirements - The base shall have the specific minimum slope (2%) and shall vary no more than 1/8” when measured in any direction with a 10’ straight edge.

Stone – The density requirement is 90% to 95% compaction with final condition of stone as level and stable so as not to shift when traveled on or during surface installation process. A compaction test is required and must be submitted to GameTime prior to installation of turf surfacing. Failure to provide proof of compaction test will void 5-year warranty of turf surfacing should signs of sub-base failure occurs.

PART 3 – SUB-BASE TYPES AND DETAILS (Continued)

<u>Depth:</u>	4 inch minimum thickness.
<u>Slope:</u>	Stone elevation shall maintain 1/4" per foot toward low end.
<u>Porosity:</u>	Base course shall maintain porosity for direct drainage.
<u>Enclosure:</u>	Stone base course must be surrounded by a retaining curb.
<u>Drainage:</u>	Subsurface drainage is recommended under and around a stone base. Perforated pipe or similar system is acceptable.
<u>Tolerances:</u>	1/4" in any 10-foot direction and 1/8" in any 3-foot direction.
<u>Stone Selection:</u>	It is critical that different size stones are used so that the base shall be uniformly mixed. The material shall be wetted during mixing operations if necessary for proper blending.

<u>Stone Graduation</u>	<u>U.S. Sieve</u> 1"	<u>Percent Passing</u> 100
	3/4"	90 - 100
	No. 4	35 - 60
	No. 30	10 - 30
	No. 200	2 - 9

Concrete or Asphalt – Concrete should be finished with a medium broom finish. All new concrete slabs must cure for a minimum of seven (7) days prior to installation. Asphalt cure time requires fourteen (14) days. Once the new asphalt has cured, it must be pressured washed prior to the surfacing being installed. The concrete contractor shall be responsible for flooding the pad to insure proper slope and tolerance. Any areas holding enough water to cover a flat nickel shall be patched prior to arrival of turf installation crews.

<u>Depth:</u>	4 inch minimum thickness.
<u>Slope:</u>	Concrete or asphalt shall maintain 1/4" per foot.
<u>Tolerance:</u>	Concrete must maintain a tolerance of 1/8" in 10 ft. to avoid low areas that will hold water under the turf.

PART 4 – SITE PREPARATION AND REQUIREMENTS

Drainage – Having proper drainage at the low end of the concrete slab is of utmost importance. Any brick walls or curbs at the low end of the slab shall have drainage access through weep holes. Concrete curbing weep holes should be level with finish grade of sub-base or a minimum of 1/8" below top of concrete slab, as GT IMPAX turf surfacing is porous and water drains immediately through it. Weep holes shall be 2" high and 3" wide and shall be installed every three (3) feet. If weep holes are smaller than the recommended size, they shall be installed every 18". (Sponsored by Councilmember Rowell)

WHEREAS, the City of South Fulton ("City") is a municipal corporation duly organized and existing under the laws of the State of Georgia; and

WHEREAS, the duly elected governing authority of the City is the Mayor and Council thereof ("City Council"); and

WHEREAS, pursuant to City Charter Section 3.10 (b), the City Council is authorized to adopt ordinances and amendments it deems necessary, expedient, or helpful for the health, welfare, safety, comfort and well-being of the inhabitants of the City; and

WHEREAS, the Mayor and City Council of the City of South Fulton finds that this Ordinance is in the best interest of the public health, safety, and welfare.

THE CITY COUNCIL OF THE CITY OF SOUTH FULTON HEREBY ORDAINS as follows:

Section 1. That Chapter 2 (Licensing) of Title 16 (Alcoholic Beverages) of the City of South Fulton Code of Ordinances be amended to add a new section 16-2003.2 to read as follows:

"Sec. 16-2003.2. - Public safety plan required.

Applicants for a retail package license (Sec. 16-2002) and/or a retail consumption on the premises license (Sec. 16-2003) shall prepare and submit with their application a written public safety plan, which shall be subject to the approval of the South Fulton Police Chief or his/her designee prior to the issuance of an alcoholic beverage license, or the renewal of an alcoholic beverage license if an approved public safety plan has not been previously submitted. A public safety plan may include the following, in addition to any specific information requested by the South Fulton Police Department in connection with its review:

- (a) Identification of the days and hours of operation;
- (b) Specific measures and procedures to address crowd management, both within and outside the premises;
- (c) Identification of any parking areas either owned or controlled by the licensee;

- (d) Means of controlling access to the premises and parking areas;

The failure of a licensee or its employees, agents, and servants to adhere to the terms and conditions of an approved public safety plan shall constitute a violation of this article, in addition to any other applicable statute, ordinance, or regulation, and subject the licensee to the penalty provisions set forth in Section 16-2028, as amended, and Section 16-3001, as amended."

Section 2. It is hereby declared to be the intention of the Mayor and Council that: (a) All sections, paragraphs, sentences, clauses and phrases of this Ordinance are or were, upon their enactment, believed by the City Council to be fully valid, enforceable and constitutional.

The attached Municipal Court Probation Services contract was signed by all designees but me. [Section 3.21](#) of our City charter states that: "Every ordinance, resolution, or other action adopted by the city council shall be presented to the mayor for signature."

This contract was never presented to me for my signature or consideration, which I hold as a violation of the Charter.

I was present in City Hall November 28 & 29; and live only 6 minutes from City Hall — closer than the City Manager, City Attorney or any other signatory to this document. There was no time during the month of November during which I, as Mayor, was incapacitated or unavailable to execute City contracts.

I am very concerned this Resolution sets us on a slippery slope whereby members of Council can simply claim an "emergency" to preclude the possibility of my veto. Therefore, I am vetoing the Resolution authorizing the City Manager to execute a contract without my consideration — but the contract itself. Please note the attached version of the contract with my signature.

Please do not hesitate to respond here with any questions or concerns you have.

Section 3.21. Submission of Ordinance to the Mayor

(a) Every ordinance, resolution, or other action adopted by the city council shall be presented to the mayor for signature within five (5) business days following the adoption of such ordinance, resolution or other action by the city council. The mayor shall have the right to veto any ordinance, resolution, or other action adopted by the city council, in accordance with the procedure set forth in this section.

(b) The mayor, within ten (10) business days following receipt of an ordinance, resolution, or other action adopted by the city council shall return it to the city clerk with or without the mayor's approval or with the mayor's veto. If an ordinance, resolution, or other action adopted by the city council has been approved by the mayor or if it is returned to the city clerk neither approved nor disapproved, it shall become law upon its return to the city clerk. However, if the mayor fails to return an ordinance, resolution, or other action adopted by the city council to the city clerk within ten (10) business days of receipt, it shall become law at 12:00 Midnight on the tenth business day after receipt. If the ordinance, resolution, or other action adopted by the city council is vetoed by the mayor, the mayor shall submit to city council, through the city clerk, the reasons for the mayor's veto. The city clerk shall record upon the ordinance the date of its delivery to and its receipt from the mayor.

(c) An ordinance, resolution, or other action adopted by the city council vetoed by the mayor shall automatically be on the agenda at the next regular meeting of the city council for reconsideration. Votes to override mayoral vetoes shall occur at regular scheduled meetings of the city council and cannot occur at a special meeting or emergency meeting. If the minimum number of councilmembers necessary to vote to override the veto are not present, the action may be continued until the next meeting at which such minimum number of councilmembers are present. The city council may override a veto by the mayor and adopt any ordinance, resolution, or other action adopted by the city council that has been vetoed by the mayor by the affirmative votes of a least five (5) councilmembers, not including the mayor.

(d) In addition, the mayor may disapprove or reduce any item or items of appropriation in any ordinance or resolution, or other action adopted by the city council. The approved part or parts of any ordinance or resolution, or other action adopted by the city council making appropriations shall become law, and the part or parts disapproved or reduced shall not become law unless subsequently passed by the city council over the mayor's veto as provided herein. The disapproved or reduce part or parts of any such ordinance or resolution, or other action adopted by the city council shall be presented to the city council as though disapproved and shall not become law unless overridden by the city council as set forth in subsection (c) of this section.

PERIOD OF SERVICE

The performance of the aforementioned services shall commence on the 1st day of December, 2022, and shall continue with a specific expiration date of the 30th day of November, 2023. If PPSI fails to correct or take reasonable steps to correct the deficiencies within ten (10) working days, the City may declare PPSI in default and this Contract shall be declared terminated upon receipt by PPSI of notice thereof. PPSI agrees that in the event it disputes the City's right to invoke the provisions of this paragraph, it will not seek injunctive or other similar relief, but will either negotiate a settlement of the matter with the City or seek, as its remedy, monetary damages in a Court of competent jurisdiction.

DISPUTES

In the event of any controversy, claim or dispute as to the services and work performed or to be performed by PPSI, or the construction or operation of or rights and liabilities of the parties under this Contract, where the City is the complaining party, each such question shall be submitted to the Chief Judge of the South Fulton Municipal Court for resolution; provided, however, in the event either party disagrees with the decisions of the Judge, that party shall have the right to litigate the matter in its entirety in a Court of competent jurisdiction. The party wishing to submit a matter to the Judge shall do so by written notice to the other party and to the Judge, which shall specify the nature of the controversy, claim or dispute. The Judge shall schedule a hearing within fifteen (15) days of such notice, at which time both parties shall present their positions. The Judge shall render a decision within seven (7) days after the date of the hearing. In the event the Judge is the complaining party, the Presiding Judge of the Fulton County Superior Court, or his/her designee, shall be asked to resolve the issues presented.

TRANSFER OF OPERATIONS

In the event PPSI defaults for any reason in the service provided for by this Contract, the City may, at its election and upon five (5) working days' prior written notice to PPSI, take possession of all records and other documents generated by PPSI in connection with this Contract, and the City may use the same in the performance of the services described herein. PPSI agrees to surrender peacefully said records and documents. The City shall provide PPSI with a written receipt of those items over which the City assumes exclusive control. PPSI agrees that in the event it disputes the City's right to invoke the provisions of this paragraph, it will not seek injunctive or other similar relief, but will either negotiate a settlement of the matter with the City, or seek monetary damages as its remedy in a court of competent jurisdiction.

RIGHT TO REQUIRE PERFORMANCE

The failure of the City at any time to require performance by PPSI of any provisions hereof shall in no way affect the right of the City thereafter to enforce same. Nor shall waiver by the City of any breach of any provision hereof be taken or held to be a waiver of any succeeding breach of such provision or as a waiver of any provision itself.

ACCESS TO BOOKS AND RECORDS

The application is complete but in the indication of an attendance of 400 you will need a fire warden to take count as not to exceed the seated capacity of the arts center, all emergency egresses shall be kept clear . I want to make sure that anyone's security detail or plans do not interfere with emergency egress. It also would be imperative that the parking at the facility be followed including that the emergency red curbs are clear during the event. We support your event, and hope to maintain the safety of all attendees by ensuring that emergency egresses and access are adhered to , so that if an emergency occurs the vehicles will have accessibility to facility to assist.
